PROFESSIONAL SUMMARY

Software Engineer with a BS in Software Engineering and hands-on experience in Flutter, Node.js, C++, Java, C#, and SQL. Passionate about developing scalable applications, building RESTful backend systems, and learning modern technologies. Seeking an opportunity to apply technical and problem-solving skills in a software development role.

EDUCATION

Barani Institute of Information Technology Rawalpindi (BIIT)

BS Software Engineering (Completed), CGPA: 3.54/4.0 – Affiliated with Pir Mehr Ali Shah Arid Agriculture University

EXPERIENCE

Flutter Developer Intern

May 2026 – Jul 5, 2026

SoftBridge Labs

- Working remotely as a Flutter Developer Intern for an India-based company.
- Developed Kharcha Book, a fully responsive expense-tracking mobile application, from start to finish using Flutter.
- Collaborated using the organization's GitHub for version control and code management.

Backend Developer Intern

june 2026 – Jul 14, 2026

DevelopersHub Corporation

- Completed an internship at DevelopersHub Corporation, contributing to backend development tasks.
- Worked on the Ecommerce Backend Design project, building a Node.js backend structured around RESTful API architecture.
- Implemented core e-commerce functionalities including product management, user handling, and order processing logic.

PROJECTS

Ecommerce Backend Design | *Node.js, REST API, Database Design*

- <https://github.com/AdeelSultani/ecommerce-backend-design>
- Designed and developed a backend system for an e-commerce application using Node.js, structured around RESTful API architecture.
- Implemented core e-commerce functionalities including product management, user handling, and order processing logic.
- Focused on clean backend architecture and maintainable code structure for scalability.

Kharcha Book | *Flutter*

- <https://github.com/SoftBridge-Labs/Kharchabook>
- Built a fully responsive expense-tracking mobile application from start to finish using Flutter.
- Developed during a remote internship at SoftBridge Labs and published under the organization's GitHub.

Safe Zone | *Flutter, Google Maps API*

- <https://github.com/AdeelSultani/Safe-Zone>
- Built a smart navigation app that generates multiple routes and analyzes them based on safety.
- Detected and visually displayed danger zones on the map, evaluating each route against these zones.
- Recommended safer paths to help users make secure travel decisions.

Smart Expense Tracker | *Flutter, SQLite*

- <https://github.com/AdeelSultani/Smart-Expense-Tracker>
- Developed a mobile application to help users manage and monitor daily expenses efficiently.
- Enabled users to add, update, and track spending with data stored locally using SQLite for fast, reliable performance.
- Built a simple, user-friendly interface to keep financial records organized and accessible.

WhatsApp UI Clone | *Flutter*

- <https://github.com/AdeelSultani/Whatsap-Ui>
- Replicated the modern and clean interface of the original WhatsApp application using Flutter.
- Focused on frontend UI/UX design, delivering a smooth and responsive user experience.

SKILLS

Programming Languages: C#, Java, C++, Dart, JavaScript, SQL

Backend & Frameworks: Node.js, .NET MVC, Flutter

Databases: SQL Server, Firebase, SQLite

Tools: Git, GitHub, Visual Studio, VS Code, Android Studio, Postman

Concepts: OOP, REST APIs, Third-Party API Integration, State Management

PORTFOLIO

<https://my-portfolio-azure-eight-57.vercel.app/#projects>

CERTIFICATES

Certificate of Participation for Speed Programming – DevCon 26

ADDITIONAL STRENGTHS

Strong problem-solving and analytical skills

Quick learner, adaptable to new technologies and frameworks

Effective team collaboration and communication skills
