Professional Summary

Software Engineering student with experience in Flutter,C++,Java ,C#, and SQL. Passionate about developing scalable applications and learning modern technologies. Seeking an opportunity to apply technical and problem-solving skills.

Projects

Whatsap-Ui · <https://github.com/AdeelSultani/Whatsap-Ui>

- This project is a **WhatsApp UI Clone** developed using **Flutter**, designed to replicate the modern and clean interface of the original WhatsApp application. It focuses on frontend UI/UX design and provides a smooth and responsive user experience.

Safe-Zone · <https://github.com/AdeelSultani/Safe-Zone>

- **Safe Zone** is a smart navigation app that generates multiple routes and analyzes them based on safety. It detects and visually displays danger zones on the map, evaluates each route against these zones, and recommends safer paths to help users make secure travel decisions.

Expense_tracker · https://github.com/AdeelSultani/expense_tracker

- **Expense Tracker** is a mobile application that helps users manage and monitor their daily expenses efficiently. It allows users to add, update, and track spending while storing data locally using **SQLite** for fast and reliable performance. The app provides a simple and user-friendly interface to keep financial records organized and easily accessible.

Education

BS Software Engineering Barani Institute of Information Technology (BIIT)

· [arid agriculture university rawalpindi](#)

Skills

Programming: C#,Java,C++ Dart, SQL Tools: Git, Visual Studio, VS Code Concepts: OOP, REST APIs, Third Party APIs

Frameworks: Flutter, .NET MVC, Databases: SQL Server Firebase State Management :Provider

Certificates

Certificate of Participation For Speed Programming DevCon 26

Extra-Curricular Activities

Strong problem-solving and analytical skills Quick learner and adaptable to new technologiesTeam collaboration and communication skills
